Re: Date Extensions to Complete Requested Actions Contained in the
September 16, 2011 Compliance Advisory

Dear Mr. Emmons:

This letter is in response to your letter dated November 1, 2011 regarding an extension of time until January 16, 2012 to comply with the September 16, 2011 Compliance Advisory.

Tires that have migrated into the Burro Creek waterways, located on private land and Department of Parks & Wildlife land are not currently retrievable. We are working with Dave Hale of the DPW, and will remove those tires when the weather permits. We anticipate this will happen in March or April, 2012. Mr. Hale will contact me when the tires are retrievable from the waterways. He does not expect that they will dislodge or cause any issues through the winter season.

The reports required documenting the clean-up efforts, as well as the interim storage and ultimate disposal of the tires will be held up until the tires in Burro Creek can be retrieved.

We therefore request an extension of time until April 15, 2012 to provide the reports requested in the September 16, 2011 Compliance Advisory.

I look forward to hearing from you.
